Fishing with Amazing Abilities

29th May 2015

A perfect May Day dawned bright and clear as 23 very eager students and staff boarded the bus to head down to Emu Point to throw a line in and catch some fish.

We always have a great day when the Fishing with Disabilities Association, arrange these fun filled outings for us, and today was no exception.

In total we caught

2 x King George Whiting, 2 x mullet, 3x Leather Jackets, a black bream, a Skippy, a herring and 1 Trumpeter!

There was much excitement for some of the students who watched a Whale watching boat be lowered into the drink by a massive mechanical hoist, We got to play on the brand new Emu Point playground equipment and Mrs Redmond saved the day when we realised there was no sausage sizzle by buying us boxes and boxes of piping hot chips!!

We would like to make special mention and many thanks to Susanne Dennings and all the volunteers who not only make these excursions possible but also fun and engaging 😊
